

BRIGHTON™
PATIO DOORS

For a look like None Other.

Feb. 2016

BRIGHTON
PATIO DOORS

Features that Excel

On every door, warmth and beauty flourish with pine wood interiors, perfect for painting or staining. With extruded aluminum cladding, little or no exterior maintenance is required.

All hinged doors contain a multi-point locking system featuring a three-point system for genuine security.

Quaker Energy Glass Packages enhance your home's energy-efficiency and also repels harmful UV rays, protecting carpet, rugs flooring and furniture.

Hinged doors are bolstered by an anodized aluminum sill in a bronze color. Sliding doors possess bronze fiberglass sills. All sills are made to withstand the rigors that come with frequent in-and-out activity.

Sliding doors contain screens featuring BetterVue™ mesh for improved vision and protection.

Resilient ball-bearing rollers on sliding doors never give in to excessive use and are extremely simple to adjust.

Extended panel drip edge sheds water away while strategically placed weatherstrip improves air/thermal performance.

Quaker's warranty is one of the industry's best.

Options that Define

Enhance energy performance with glass options such as Quaker's *EnergyPlus* and *EnergyMax* glass or specialty tints. Richen your door's aesthetics with flat wood panels. Choose either the half or quarter panel design.

Add grids to help establish your home's style. *Simulated Divided Lites* lend elegance and antiquity. *Grids Between the Glass* are dust-free, available in a flat or contoured shape, and offered in single color or two-tone appearance. *Wood Surround* grids add beauty yet can be removed for easy cleaning.

Pre-finished white or primed interiors are always an availability. Ask about custom painted interiors. Hardware finishes are available in many flavors.

Add a special zest to your interior with *Alder Wood* in place of pine.

Colors that Inspire

If you have a color in mind, we can certainly match it with our custom color capabilities too.

Due to printing limitations, colors shown may not accurately reflect actual paint color. Quaker does not assume any responsibility for any misrepresentations of our standard colors. Please call your authorized Quaker dealer for an actual color sample.

Styles that Impress

Pick your door height from 6'8", 6'11", 8' or 9' standards. Or ask about available custom sizes. Stack geometrics shapes such as half rounds, elliptical, arch heads or transoms above any patio door for a spectacular, eye-catching entrance.
