SIMPSONDOOR.COM

welcome

There's a reason why a welcome mat is placed at the foot of a door. A door is the warm greeting as you enter the home. Conversely it is the welcoming promise of the world beyond as you leave those walls behind. The closing of a door can bring comfort and security. The opening leads to possibilities and wonder. As the first and last impression, a door is not only representative of your creativity and style, but it's something that helps transport you to and from life's events. Choose the right door and welcome beauty, elegance, character, and of course, unparalleled quality to your life.

HOW TO ORDER

Six Steps to Your Perfect Simpson Door

Life is about choices. Sometimes you have an exact idea of the type of door you're looking for, while other times you know what door is right "when you see it." Simpson has many options to make finding the right door simple and carefree.

Since you can get a Simpson door in any wood, any glass or any style, the possibilities are endless. That's why we've broken down the process into six easy steps. In doing so, we can help keep your decision making focused and your possibilities infinite. Just imagine what you can create.

simpsondoor.com/howtoorder

1 CHOOSE A DESIGN

Here's where it all begins. Complement your home with popular styles like Arts & Crafts, Colonial or Contemporary; or browse our extensive collections like Nantucket®, Mastermark® or Artist.

2 CHOOSE YOUR SIZE

Our doors come in all shapes and sizes. No matter what you have in mind, Simpson can make your wood door come to life. Select your size up to 12 feet tall, 6 feet wide and 2-1/4" thick.

3 CHOOSE A WOOD SPECIES

Simpson offers a broad range of wood species, each with its own distinctive character. Choose from traditional to exotic, each meeting our strict grading standards.

4 CHOOSE YOUR GLASS

Whether you are concerned about privacy or just want to add a contemporary touch to your door design, we can deliver the perfect piece of glass that reflects your vision.

5 CHOOSE AN UPGRADE

Sometimes an exterior door needs additional protection from the demanding elements of Mother Nature. Our Performance Series® is a selection of heavy-duty upgrades. Or choose the Nantucket Collection, an all wood door engineered for the toughest exposures.

6 CHOOSE A DEALER

Simpson Authorized Dealers will provide you with the additional information you need for your dream door. To find one near you, simply visit our website and enter your zip/postal code.

UNLOCK MORE AT **SIMPSONDOOR.COM**

This catalog provides a broad view of the various doors, options and design ideas available from Simpson Door Company. To explore the full collection and interact even further, visit our extensive website. There you can open the door to a wide web of useful tools and information.

Are you a homeowner who wants to see what a Simpson door will look like in your home before you buy it? Or an architect or designer in need of a canvas for your next work? Our Doormagination tools can help you conceive a custom work of art.

TEST DRIVE A DOOR

Having a hard time deciding which Simpson door is right for your home? Take our doors for a test drive, on your home or one like it. simpsondoor.com/testdrive

WOOD SELECTOR

One of wood's greatest appeals is the fact that no two pieces look exactly the same. You do not have to settle with the "cookie cutter" feel offered by other building materials. Grain patterns and color vary, adding texture, warmth and personality. simpsondoor.com/wood

GLASS TASTE TEST

Need help visualizing which type of glass gives you both the look and privacy level you desire? Try our glass taste test and see what any door and glass combination will look like in your home. simpsondoor.com/tastetest

ANY WOOD

Select the wood species that fits you. Choose from an array of species, from traditional to exotic, each meeting our strict grading standards.

PRIVACY RATING

You can let the world in, or you can choose to be private. Our privacy rating will help you select glass that works for you.

ANY SIZE

Our doors come in all shapes and sizes. Select your size up to 12 feet tall, 6 feet wide and 2-1/4" thick.

LEARN MORE: [SIMPSONDOOR.COM/OPTIONS](https://www.simpsondoor.com/options)

GLASS OPTIONS

Let your glass reflect your life. We offer a variety of textured and obscure glass options to fit your personality.

ULTRABLOCK[®] TECHNOLOGY

This patented process adds a water-resistant composite block in the bottom of the door stiles where water infiltration can occur in a tough exposure.

WATERBARRIER[®] TECHNOLOGY

Our patent-pending technology combines a Medium Density Overlay with PVC glazing beads and bars to create an exterior that stops water in its tracks.

CONCEPT® CUSTOM IDEA GALLERY

Open up to a new way to buy a door. Think outside the frame, and personalize your door to fit your unique style. Mix and match different glass, wood and designs from throughout this book, or draw up your own ideas from scratch. To help unlock your creativity, check out the following pages to see what other homeowners have done.

AT YOUR DOOR®

DOORS IN THIS SECTION ARE SHOWN IN DOUGLAS FIR
WITH TEAK STAIN UNLESS OTHERWISE NOTED

NANTUCKET® COLLECTION

Nantucket Island is a place of great beauty that withstands the harsh coastal weather of the North Atlantic. That same resilient charm is expressed in the Nantucket® Collection by Simpson. Featuring a 10-year warranty, these doors combine weather-resistant wood species with a modified mortise-and-tenon construction technique. The result is a door that will retain its rugged beauty, regardless of what nature sends its way.

77860 FP

Shown in Douglas fir with 77260 sidelight with flat panels, optional shaker sticking and sea spray glass. Privacy Rating 5.

BEAUTY AND DURABILITY

Nicknamed “The Gray Lady” due to its regular foggy conditions, Nantucket is known for being historic, hardy and starkly beautiful. Windblown beaches and weather-beaten shingles are a way of life on this blustery island. This same spirit is reflected in our Nantucket® Collection...doors built to stand up to the elements while standing out, thanks to their classic design and unsurpassed craftsmanship.

EXTENDED WARRANTY

- 10-year warranty on doors made from Douglas Fir, Sapele Mahogany and Nootka Cypress
- No building overhang required

UNBEATABLE CONSTRUCTION

- Mortise-and-tenon joinery with face-driven pins
- Two-piece laminated stile-and-rail construction
- Divided lite doors made with SDL construction
- Design pressure ratings of DP50

WOOD SPECIES

You can choose from three wood species options. Because the grain patterns and color of natural wood will vary, your door will have a one-of-a-kind texture, warmth and personality.

- Available in Douglas Fir, Sapele Mahogany and Nootka Cypress
- Tenon and face pins always made of Black Locust

ARTIST COLLECTION®

Art is the concrete representation of our imagination. It's about bringing dreams to life. This is the inspiration behind our one-of-a-kind doors. The Simpson Artist Collection® is an anthology of unique, limited edition door designs by select artists. Simpson partners with the artist to bring “commissioned art to the masses.” Our Artist Collection doors are for America's most discriminating homeowners.

CRAFTSMAN COLLECTION

Fine craftsmanship has been a cornerstone of American architecture for generations. This foundation of quality and attention to detail made this country great. Simpson's commitment to building the best doors is as strong today as it was when we began over 100 years ago. Our Craftsman Collection allows you to capture the essence of this fine tradition, while making a statement that distinctly reflects your lifestyle. The difference is in the details. All Craftsman doors come standard with UltraBlock® Technology and a 5-year warranty.

TRADITIONAL EXTERIOR DOORS

There's a certain comfort in tradition. The passing down of skills and beliefs from generation to generation means you know exactly what to expect. Our traditional doors are made to be part of life's journey, no matter where it takes you. For over 100 years, Simpson has been engineering wood doors using the latest technologies. It's what we know. It's who we are. It's why you can expect the very best from every Simpson Traditional exterior door.

simpsondoor.com/testdrive

EXTERIOR FRENCH & SASH DOORS

The right doors can really make the view. French and Sash doors have been favorites of homeowners because they naturally connect living spaces with outdoor settings by allowing light to pass through.

Our Exterior French and Sash doors are made with your choice of Simulated Divided Lite (SDL) or True Divided Lite (TDL) construction, and can be specified with WaterBarrier® and UltraBlock® technology upgrades. So you'll maximize your view of the outdoors, while keeping the elements of nature at bay.

37015

with custom transom and optional WaterBarrier® and UltraBlock® technologies

WATERBARRIER® TECHNOLOGY

WaterBarrier® technology helps preserve the beauty of your Simpson doors even in tough exposures subject to harsh weather. Available for virtually any Simpson exterior door, this innovation affords you superior water protection.

WaterBarrier combines a medium density overlay (MDO) over the exterior surface of the door with PVC bars and glazing beads for an exterior that's not only resistant to moisture, but provides a beautiful surface for paint. And when combined with any wood species on the inside, you can match your interior woodwork and keep the warmth and natural beauty that wood provides.

37944 WB
Shown in Douglas fir with WaterBarrier® technology

WATERBARRIER® TECHNOLOGY (PATENT PENDING)

PVC glazing bead and SDL bars on exterior side. Wood bars on interior side.

Primed Medium Density Overlay for flat surfaces

Innerbond® double hip-raised panels have a water-resistant primer

WEATHER SEAL™ PROCESS

Entire stile-and-rail joints coated and bonded to decrease the possibility of water infiltration

ULTRABLOCK® TECHNOLOGY

Composite block material finger-jointed into the bottom of the stiles

ULTRABLOCK® TECHNOLOGY

A long time favorite of Simpson's most discriminating customers, UltraBlock® technology adds a water-resistant composite block in the bottom of the door stiles, where water infiltration can occur in a tough exposure. Our exclusive Weather Seal™ process provides additional protection against moisture penetrating the bottom rail. It's our answer to the galoshes you splashed around in as a kid.

ULTRABLOCK TECHNOLOGY

5-year warranty and available for any 1-3/4" thick exterior door.

WATERBARRIER TECHNOLOGY

5-year warranty with no building overhang required and available for virtually any exterior door.

When ordering WaterBarrier technology, UltraBlock technology is always included.

CARE & FINISHING

Your Simpson door has been handcrafted to last for years to come. And like any piece of fine furniture, it needs proper finishing and periodic maintenance to keep it performing at its best. For a long-lasting, beautiful Simpson door, please follow the instructions as outlined in the care & finishing section of the Simpson website at simpsondoor.com/care-finishing/. Failure to follow Simpson's care & finishing recommendations will void the door's warranty.

FITTING AND HANGING

1. When hanging the door, allow adequate clearance for swelling of door or frame in damp weather. Allow approximately 3/16" clearance for swelling when the door is installed in fully dry conditions. Jambs must be plumb.
2. Do not cut doors down in height by more than 2" (1-1/2" maximum from bottom or 1" on doors with UltraBlock® technology, 1/2" maximum from top). Care should be taken in cutting doors down in width to avoid exposing engineered components. Use a sharp fine-tooth saw for trimming ends of doors.
3. Caution must be used to avoid impairing the strength of the door when fitting for locks. Allow at least 1" of wood back of mortise.
4. Use three hinges on doors up to 7' in height and four hinges on doors over 7'. Hinges must be set in a straight line to prevent distortion.
5. Jambs and stops must be set square and plumb.
6. For best performance and to meet the standard Simpson warranty, any exterior door should be installed under an overhang or with sufficient protection. Adequate overhang depends on typical weather conditions of the area where the door is installed, but at the minimum means an overhang projecting a distance from the structure equal to one half the distance between the bottom of the door and the bottom of the overhang (see figure 1).

7. If an adequate overhang is not feasible, Simpson offers a selection of products warranted for this application, including a five-year limited warranty on doors featuring WaterBarrier® technology and a ten-year limited warranty on Nantucket® Collection doors.
8. Do not use dark colored stains or paints.
9. Immediately after cutting and fitting (before hanging), seal all cut surfaces and ends of door with an effective quality sealer. See exterior and interior finishing recommendation for complete instructions.
10. Prior to exterior exposure, doors must be finished with complete finish system.
11. To minimize heat loss and save energy, use weather stripping.

Figure 1

MAINTENANCE

Your Simpson door's finish will require some simple, periodic maintenance to keep it looking great and provide proper protection against the elements. Regular finish maintenance is also a requirement of the warranty that's included with every Simpson door.

Here are some signs to watch for. They indicate that it's time for some simple, easy-to-perform maintenance:

- Hairline cracks in the top coat of finish.
- Changes in the color of the finish.
- Changes in the texture of the finish, such as flaking or scaling.
- Dullness or chalkiness in the finish.

If you live in a severe climate or your entry receives a lot of direct sunlight from a southern or western exposure, you'll want to examine your door's finish often. Depending on the conditions, you may also need to maintain the door finish more frequently.

It is important to note that wood has inherent dynamic qualities. Over time, small surface "imperfections" may appear, and the door may shrink or swell slightly as it "breathes" with climate changes. These characteristics are perfectly normal, reflecting the natural aging process of a wood door, and they should not be considered defects. To minimize these occurrences, protect your door with the right finish and an adequate overhang.

For more information on the care and finishing of a Simpson door, please visit: simpsondoor.com/care-finishing

WARRANTIES

When you engineer doors designed to last generations, you can feel confident in assuring their durability. That's why Simpson doors are backed by some of the strongest warranties in the business. Enjoy peace-of-mind from our industry-leading warranties that are strong, secure and long-lasting ... like our doors.

SIMPSON® LIMITED WARRANTY

Simpson Door Company ("Simpson") warrants that each panel door bearing the Simpson brand and identification mark complies with Industry Standard NWWDA I.S.6. and all revisions in effect as of the date of manufacture, and Simpson further warrants, except as stated below, that each such door, at the time of the shipment from Simpson, is of good material and workmanship and free from defects that would render such door unserviceable or unfit for the ordinary, recommended use. The Simpson limited warranty applies to new doors other than those sold "as is". Warranty periods for specific doors and door components, and exclusions, follow:

ONE YEAR EXTERIOR DOOR AND FIRE DOOR WARRANTY

For doors used in an exterior application, other than as specified herein, and for fire-rated interior doors, this warranty shall survive for one year after the date of shipment from Simpson. This warranty applies to doors properly sealed, finished and, in the case of exterior applications, hung in a location protected from exposure to direct sun or rain under normal conditions. See specific Fitting and Hanging instructions.

TEN YEAR INTERIOR DOOR WARRANTY

For doors used in an interior application (defined as being exposed to controlled interior climatic conditions on both sides of the door), this warranty shall survive for ten years after the date of shipment from Simpson. This warranty applies to doors

properly sealed, finished and hung. See specific Fitting and Hanging instructions. The ten year warranty on interior doors does not apply to fire-rated interior doors, doors with resin panels, or doors used in commercial, hospitality or multi-family applications, in which case, the one year warranty will apply. The ten year warranty applies only to the original end-user and is not transferable.

TEN YEAR NANTUCKET® COLLECTION LIMITED WARRANTY

For Nantucket Collection doors—defined as using Nantucket construction methods—in Sapele Mahogany, Douglas Fir or Nootka Cypress wood species, this warranty shall survive for ten years after the date of shipment from Simpson. This warranty applies to doors properly sealed and finished per Simpson's Care and Finishing instructions. The ten year warranty on Nantucket Collection doors does not apply to doors used in commercial, hospitality or multi-family applications. Further, face-checking is considered a natural characteristic and shall not be considered a defect. The ten year warranty applies only to the original end-user and is not transferable.

FIVE YEAR PERFORMANCE SERIES® WITH WATERBARRIER® TECHNOLOGY DOOR LIMITED WARRANTY

For all doors that include WaterBarrier technology over the exterior surface of the door, this warranty shall survive for five years after the date of shipment from Simpson. This warranty applies to doors properly sealed and finished per Simpson's Care and Finishing instructions. The five year warranty on doors with WaterBarrier technology does not apply to doors used in commercial, hospitality or multi-family applications. The five year warranty applies only to the original end-user and is not transferable.

FIVE YEAR PERFORMANCE SERIES® WITH ULTRABLOCK® TECHNOLOGY DOOR LIMITED WARRANTY

For all doors that include UltraBlock technology in the bottom of the door stiles, this warranty shall survive for five years after the date of shipment from Simpson. This warranty applies to the stiles and

bottom rails of doors properly sealed, finished and, in the case of exterior applications, hung in a location protected from exposure to direct sun or rain under normal conditions. See specific Fitting and Hanging instructions. Other door components are subject to Simpson's one year limited warranty.

FIVE YEAR LIMITED INSULATED GLASS WARRANTY

Simpson Door Company warrants that standard clear insulated glass units will not, for a period of five (5) years after the date of shipment from Simpson, develop material obstruction of vision between the interior glass surfaces caused by failure of the hermetic seal. This warranty shall not apply to units with broken glass, glass units installed by others, or units that have retrofit films applied.

Simpson's liability under this warranty shall be limited to shipping a replacement glass unit.

LIMITED LIFETIME INNERBOND® WARRANTY

Simpson further provides a limited lifetime warranty on Innerbond panels against splitting through the entire panel due to rain, sun, weather, and other such factors exclusive of major calamity.

In the event an Innerbond panel splits through, Simpson will ship a replacement door. If Simpson has discontinued manufacturing the door type/style with the Innerbond panel warranty claim, Simpson will issue a replacement door equal to or less than the original price of the original door purchase.

For more information on these warranties or for details on limitations, exclusions or how to make a claim, please visit: simpsondoor.com/warranties
